WOOD COATING PROCESS

From Preparation to Perfection

A simple step-by-step process to achieve beautiful, long lasting and professional finishes on your wood surfaces using PYRA Paints.

- ENHANCES NATURAL BEAUTY
- SUPERIOR PROTECTION
- LONGER LIFE
- EASY MAINTENANCE

01 SURFACE PREPARATION

Ensure the surface is clean, dry and free from dust, oil, old coatings or loose particles. A well-prepared surface gives the best finish and longer durability.

Clean, dry and smooth surface

02 FILL IMPERFECTIONS

Use PYRA Wood Filler or NC Putty to fill holes, dents and surface imperfections. Allow to dry and sand smooth for a uniform surfac

Fill holes & dents
Sand smooth

03 APPLY SEALER

Apply a suitable sealer such as PU, Acrylic, Melamine or NC Sealer. Sealer improves adhesion, reduces absorption and gives a uniform base for the top coat.

Better adhesion
Uniform base

04 SANDING

After the sealer dries, sand the surface with fine grit sandpaper for a smooth and even finish.

Smooth surface for top coat

05 APPLY TOP COAT

Apply the chosen top coat such as PU, Acrylic, Melamine or NC in recommended coats. Use spray, brush or roller as per requirement.

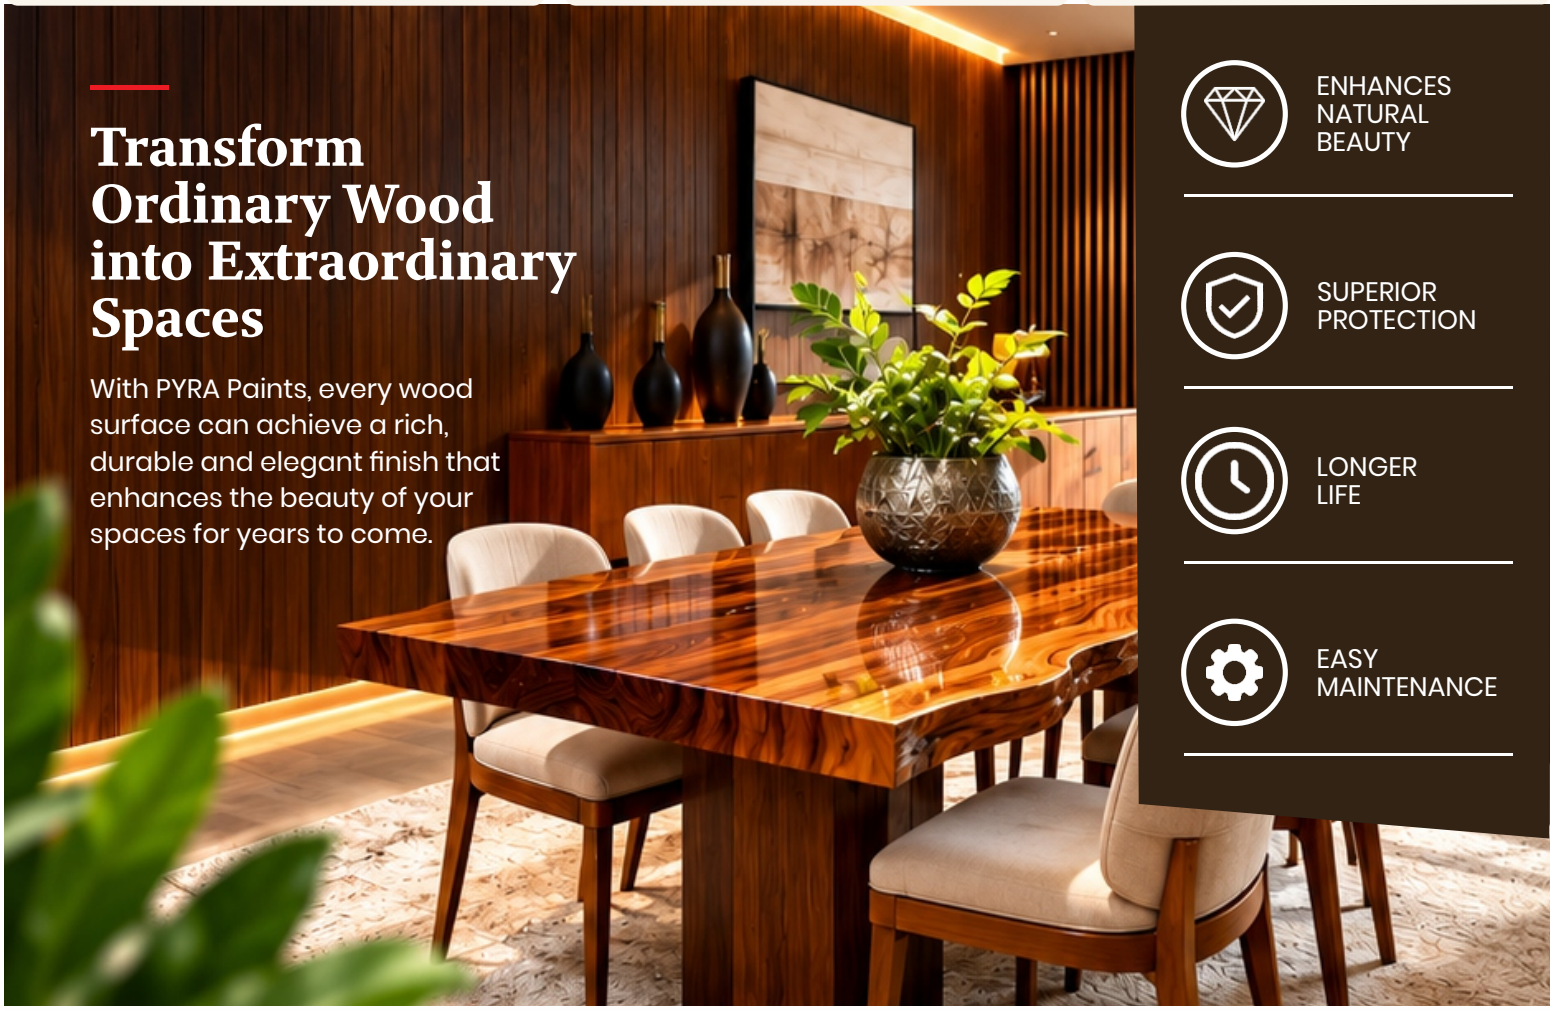

Even application with spray, brush or roller

06 FINAL FINISH

Allow proper drying time between coats. The result is a beautiful, durable and long lasting finish.

Beautiful & long lasting finish

Transform Ordinary Wood into Extraordinary Spaces

With PYRA Paints, every wood surface can achieve a rich, durable and elegant finish that enhances the beauty of your spaces for years to come.

ONE SURFACE. THREE DISTINCT FINISHES.

SAME COLOUR. DIFFERENT EXPRESSIONS. ENDLESS POSSIBILITIES.

Discover the Beauty of Every Sheen.

MATT
NATURAL ELEGANCE

A smooth, low sheen finish that brings out the natural beauty of wood, giving a sophisticated and modern look.

SATIN
REFINED APPEARANCE

A subtle sheen that offers the perfect balance between natural and glossy, enhancing the depth and richness of the surface.

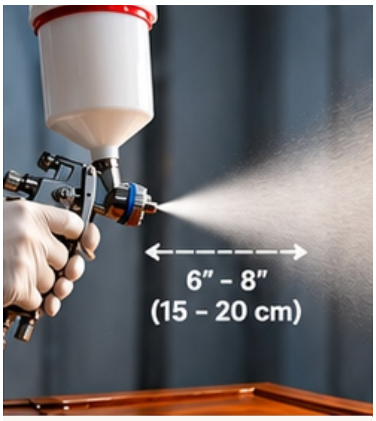

HIGH GLOSS
LUXURIOUS FINISH

A brilliant, mirror-like finish that adds depth, vibrancy and a premium look to every surface.

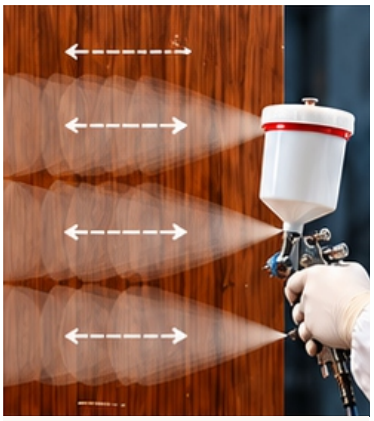

THE PERFECT SPRAY.

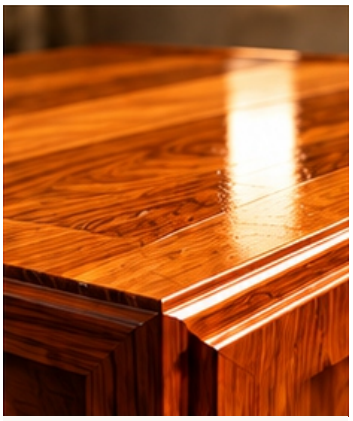

Precision in Every Pass.

The right technique helps you achieve a smooth, uniform finish with excellent appearance and durability.

01 CORRECT SPRAY DISTANCE

Maintain an even distance of 6" – 8" (15 – 20 cm) from the surface for optimal atomisation and a smooth finish.

02 PROPER SPRAY ANGLE

Keep the spray gun perpendicular (90°) to the surface to ensure even coverage and consistent appearance.

03 UNIFORM OVERLAPPING

Overlap each pass by about 50% to achieve uniform colour, consistent gloss and a flawless finish without patchiness.

04 CONSISTENT APPLICATION

Maintain a steady hand movement and uniform speed throughout the spray to get a smooth, professional finish.

SKILLFUL APPLICATION.
BEAUTIFUL RESULTS.
